Show technology to visiting patent examiners

Site Experience Education (SEE) program

The SEE program gives patent examiners the opportunity to learn about new technologies by visiting commercial, industrial, and academic sites within the continental United States.

Why participate in SEE?

Hosts can:

- Help improve the quality of patent examination by showing visiting patent examiners advances in their technology areas.

- Interact directly with patent examiners and gain a greater understanding of the patent system.

Learn more about the SEE program and how you can host at:
www.USPTO.gov/SiteExperienceEducation or email: SEE@USPTO.gov
