### FOLLOW THE STEPS BELOW TO ACCESS THE LETTER OF PROTEST FORM:

### **STEP 1: <u>CHECK STATUS.</u>**

The USPTO will accept a letter of protest filed before publication in all cases where it is determined that the evidence is relevant and supports any reasonable ground for refusal appropriate in exparte examination. When a letter of protest is filed on the date of publication or within 30 days after the date of publication, the letter of protest will be accepted only where publication of the mark constituted clear error. Letters of protest filed more than 30 days after publication are generally denied as untimely. Confirm the status of the application before proceeding. If the application is not in the correct status, you will receive an error message when you click the "Continue" button.

# **STEP 2:** ENTER THE U.S. APPLICATION SERIAL NUMBER BEING PROTESTED BELOW OR ACCESS PREVIOUSLY FILLED-OUT/SAVED FORM.

# **EVIDENCE**

You <u>must</u> attach evidence to support the legal grounds for refusal of registration. To maintain the integrity of the ex parte examination process, evidence should never identify the protestor or its representatives or contain any arguments or persuasive language. The evidence must be objective, independent, and factual and not consist of links to websites but include copies of the actual webpages.

An index is required for all letters of protest unless the ground is likelihood of confusion and the goods/services are identical. The index should be on a separate page and not appear on letterhead, identify the protestor, or include legal arguments or persuasive language. The submitted evidence must not include more than 10 items per ground and may not exceed 75 total pages or the letter of protest will not be considered.

If the protest is based on a likelihood of confusion with a U.S. Registration(s) or prior pending application(s), provide an electronic copy of the registration/application file from the USPTO TESS or TSDR databases showing the current status and owner; providing the registration or serial number is not sufficient. Do not identify more than five of the most relevant U.S. Registrations or serial numbers. If more than five registrations or serial numbers are provided, only the first five registrations or applications will be considered. If the goods/services are not identical, evidence of the relatedness of the goods/services must be attached or the letter of protest will not be considered.

If the legal basis for your letter of protest is that a previously registered mark is being used inappropriately in the protested application's identification of goods/services (ID), please identify the U.S. Registration number of the previously registered mark in the Legal Basis section of this form and, in the text entry box below, indicate the mark that appears in the protested application's ID and exactly where in the ID it is being used. You may also suggest an appropriate generic term that should be used instead of the registered mark.
