Subject: reexamination request fees are suggested to raise from the current fee of \$2,520 to a whopping \$17,750.

We think this fee increase way out of line! Will stiffen small Entrepreneurs who in no way be able to afford almost \$18,000 !!! Most inventors and small business people use their own limited funds and credit cards to start a business. . agin no way they could afford these fees .. which are even way beyond what costs your office incurrs..
