B21K

MAKING FORGED OR PRESSED METAL PRODUCTS, e.g. HORSE-SHOES, RIVETS, BOLTS OR WHEELS (making particular articles by working sheet metal without essentially removing material <u>B21D</u>; processing wire <u>B21F</u>; making pins, needles or nails <u>B21G</u>; making particular articles by rolling <u>B21H</u>; forging machines, pressing machines, hammering machines, in general <u>B21J</u>; making chains <u>B21L</u>; plating <u>B23K</u>)

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of specific products; Devices for handling, heating or cooling, controlling forging hammers or presses.

Relationships with other classification places

This subclass subdivides into:

Metal forging or pressing methods dedicated to the manufacture of specific products: <u>B21K 1/00</u>-<u>B21K 25/005</u>.

Devices for handling, heating or cooling, controlling forging hammers or presses: <u>B21K 27/00</u>-<u>B21K 31/00</u>.

References

Limiting references

This place does not cover:

Making pressed products by rolling	<u>B21B</u>
Making pressed products from metal sheet, without substantially modifying the metal sheet thickness	<u>B21D</u>
Processing wire by forging	<u>B21F</u>
Making pins, needles or nails by forging	<u>B21G</u>
Making particular pressed products by rolling	<u>B21H</u>
Making chains by forging	<u>B21L</u>

Informative references

General metal forging or pressing methods not dedicated to the manufacture of a specific product; Metal forging or pressing devices and furnaces	<u>B21J</u>
Products per se obtainable by forging, e.g. pistons, rocking arms, etc.	F02F 3/00, F01L 1/18

Making machine elements

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of machine elements.

B21K 1/02

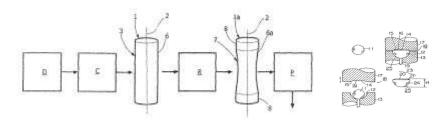

balls, rolls, or rollers, e.g. for bearings

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of balls, rolls or rollers, e.g. for bearings.

Illustrative examples of subject matter classified in this group:

B21K 1/025

{of bullets}

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of bullets.

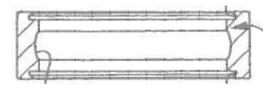

Illustrative examples of subject matter classified in this group:

B21K 1/04

ball-races {or sliding bearing races}

Definition statement

This place covers: Metal forging or pressing methods dedicated to the manufacture of ball races.

References

Informative references

Parts of bearings	F16C 33/00

B21K 1/05

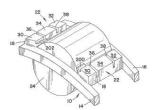

cages for bearings

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of cages for bearings.

Illustrative examples of subject matter classified in this group:

References

Informative references

Attention is drawn to the following places, which may be of interest for search:

Parts of bearings <u>F16C 33/00</u>

B21K 1/06

axles or shafts

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of axles or shafts.

References

Informative references

Axle	units	<u>B60B 35/00</u>

Shafts	<u>F16C 3/00</u>

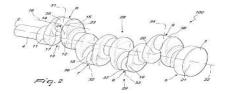

crankshafts

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of crankshafts.

Illustrative examples of subject matter classified in this group:

References

Informative references

Attention is drawn to the following places, which may be of interest for search:

Camshafts	F01L 1/047
Crankshafts	F16C 3/06

B21K 1/10

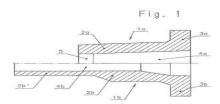

of cylindrical form

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of axles or shafts of cylindrical form.

Illustrative examples of subject matter classified in this group:

References

Informative references

Axle units	<u>B60B 35/00</u>
------------	-------------------

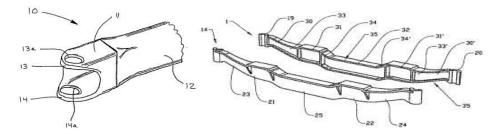

of specially-shaped cross-section

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of axles or shafts of special crosssection.

Illustrative examples of subject matter classified in this group:

References

Limiting references

This place does not cover:

Shaping axles or shafts of special cross-section by applying fluid	<u>B21D 26/00</u>
pressure	

Informative references

Attention is drawn to the following places, which may be of interest for search:

Axle units	<u>B60B 35/00</u>
Shafts	F16C 3/00

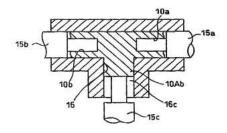

B21K 1/14

fittings

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of fittings, e.g. lubricant fittings.

Informative references

Attention is drawn to the following places, which may be of interest for search:

Branching pipes	<u>F16L 41/00</u>

B21K 1/16

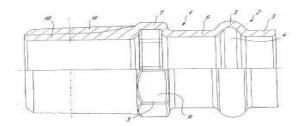

parts of pipe or hose couplings

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of parts of pipe or hose couplings.

Illustrative examples of subject matter classified in this group:

References

Informative references

Attention is drawn to the following places, which may be of interest for search:

Joints, sealing for fuel injection	F02M 55/004
Joints or fitting for pipes	<u>F16L 13/00</u> - <u>F16L 39/00</u>

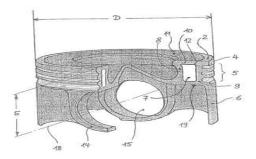

B21K 1/18

pistons or plungers

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of pistons or plungers.

Informative references

Attention is drawn to the following places, which may be of interest for search:

Making pistons by operations not covered by any other single subclass	<u>B23P 15/10</u>
Pistons in combustion engines	F02F 3/00
Pistons in general	<u>F16J</u>

B21K 1/20

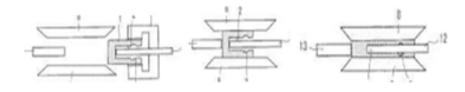

valve parts

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of valve parts.

Illustrative examples of subject matter classified in this group:

References

Informative references

Attention is drawn to the following places, which may be of interest for search:

Making branched pieces	<u>B21C 37/29</u>
Rotary valves	<u>B62D 5/083</u>

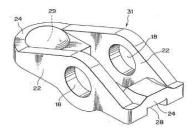

B21K 1/205

{rocker arms}

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of rocker arms.

References

Informative references

Attention is drawn to the following places, which may be of interest for search:

Rocking arms or levers	F01L 1/18
------------------------	-----------

B21K 1/22

poppet valves, e.g. for internal-combustion engines

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of poppet valves, e.g. for internal combustion engines.

Illustrative examples of subject matter classified in this group:

References

Informative references

Attention is drawn to the following places, which may be of interest for search:

Cyclically operating valves F01L

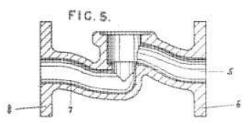

B21K 1/24

valve bodies; valve seats

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of valve bodies or valve seats.

References

Informative references

Attention is drawn to the following places, which may be of interest for search:

Details of fuel injectors	F02M 61/00
Valve housings	F16K 27/00

B21K 1/26

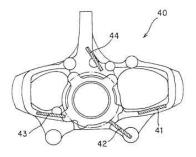

housings or supporting parts, e.g. axle housings, engine mountings

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of housings or supporting parts, e.g. axle housings or engine mountings.

Illustrative examples of subject matter classified in this group:

References

Informative references

Attention is drawn to the following places, which may be of interest for search:

Axle housings	<u>B60B 35/16</u>

B21K 1/28

wheels; discs

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of wheels or disks.

Informative references

Attention is drawn to the following places, which may be of interest for search:

Vehicle disk wheels	<u>B60B 3/00</u>

B21K 1/30

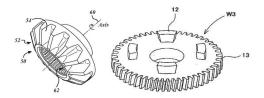

with gear-teeth

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of wheels or disks with gear teeth.

Illustrative examples of subject matter classified in this group:

References

Informative references

Attention is drawn to the following places, which may be of interest for search:

Making gear wheels by rolling	<u>B21H 5/00</u>
Making gear parts by operations not covered in any other single subclass	<u>B23P 15/14</u>
Gears with teeth	<u>F16H 55/00</u>

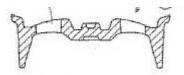

B21K 1/32

discs, e.g. disc wheels

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of disks, e.g. disc wheels.

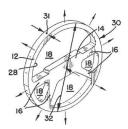

wheels with spokes

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of wheels with spokes.

Illustrative examples of subject matter classified in this group:

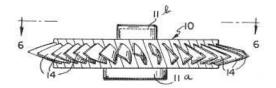

with blades

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of disks with blades.

Illustrative examples of subject matter classified in this group:

References

Informative references

Attention is drawn to the following places, which may be of interest for search:

Making turbo blades or propellers by extrusion	<u>B21C 23/16</u>
Making turbine wheels by operations not covered in any other single subclass	<u>B23P 15/006</u>
Rotor-blade aggregates	F01D 5/34

B21K 1/38

rims; tyres

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of rims or tyres.

References

Informative references

Attention is drawn to the following places, which may be of interest for search:

Rims per se	<u>B60B 21/00</u>
	I. I

B21K 1/40

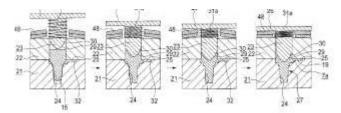

hubs

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of hubs.

Illustrative examples of subject matter classified in this group:

References

Informative references

Attention is drawn to the following places, which may be of interest for search:

Hubs of vehicle wheels	<u>B60B 27/00</u>

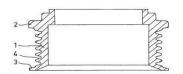

B21K 1/42

pulleys, e.g. cable pulleys

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of pulley, e.g. cable pulleys.

References

Informative references

Attention is drawn to the following places, which may be of interest for search:

	ĺ
Pulleys per se	<u>F16H 55/36</u>

B21K 1/44

bolts, studs, or the like (making screw-thread <u>B21K 1/56;</u> making U-bolts <u>B21K 1/74</u>)

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of bolts studs, or the like.

References

Informative references

Attention is drawn to the following places, which may be of interest for search:

Fasteners	F16B
	<u>1 10D</u>

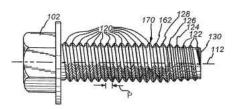

B21K 1/46

with heads

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of heads on bolts studs, or the like.

Limiting references

This place does not cover:

Forging double ended bolts, studs or the like, i.e. with heads on both	<u>B21K 1/52</u>
ends	

B21K 1/463

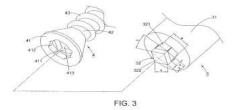

{with recessed heads}

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of bolts studs, or the like, with recessed heads.

Illustrative examples of subject matter classified in this group:

B21K 1/466

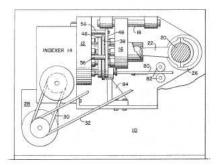

{Heading machines with an oscillating die block}

Definition statement

This place covers:

Machines for forge-heading of bolts studs, or the like, and comprising an oscillating die block.

Illustrative examples of subject matter classified in this group:

References

Informative references

Multi-stage forging presses	B21J 9/022
0 0 01	

Machines working with hammers, e.g. beating in a radial direction, for forming heads

Definition statement

This place covers:

Machines for forging heads of bolts studs, or the like, and working with hammers, e.g. beating in a radial direction.

References

Limiting references

This place does not cover:

General swaging presses, i.e. beating in radial direction	<u>B21J 9/06</u>
---	------------------

B21K 1/50

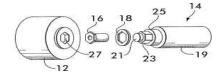

Trimming or shearing formed heads, e.g. working with dies

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the trimming or shearing of formed heads, e.g. with working dies.

Illustrative examples of subject matter classified in this group:

References

Informative references

Attention is drawn to the following places, which may be of interest for search:

Trimming by using dies in general	<u>B21J 5/00</u>
-----------------------------------	------------------

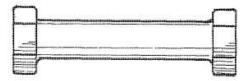

B21K 1/52

double-ended, e.g. with heads on both ends (forming heads **B21K 1/46**)

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of double-ended bolts, studs or the like, e-g- with heads on both ends.

References

Limiting references

This place does not cover:

Forming single heads	<u>B21K 1/46</u>

B21K 1/54

with grooves or notches

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of bolts, studs, of the like, with grooves or notches.

Illustrative examples of subject matter classified in this group:

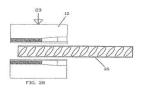

B21K 1/56

screw-threaded elements

Definition statement

This place covers:

Metal forging or pressing methods for forming screw-threads.

Informative references

Attention is drawn to the following places, which may be of interest for search:

Forming screw threads by rolling	<u>B21H 3/00</u>

B21K 1/58

rivets

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of rivets.

References

Informative references

Attention is drawn to the following places, which may be of interest for search:

Rivets	F16B 19/04
--------	------------

B21K 1/60

hollow or semi-hollow rivets

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of hollow or semi-hollow rivets.

Illustrative examples of subject matter classified in this group:

References

Informative references

Hollow rivets F16B 19/08	
--------------------------	--

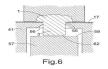

special rivets, e.g. with electrical contacts

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of special rivets, e.g. with electrical contacts.

Illustrative examples of subject matter classified in this group:

References

Informative references

Attention is drawn to the following places, which may be of interest for search:

Rivets	<u>F16B 19/04</u>
Manufacture of electric switches	<u>H01H 11/00</u>

B21K 1/64

nuts (making screw-thread **B21K 1/56**)

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of nuts.

References

Informative references

Attention is drawn to the following places, which may be of interest for search:

Pressing nuts from metal sheet without substantially modifying the metal sheet thickness	<u>B21D 53/24</u>
Nuts	F16B 37/00

B21K 1/66

from strip bars

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of nuts from strip bars.

B21K 1/68

from round or profiled bars

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of nuts from round or profiled bars.

Illustrative examples of subject matter classified in this group:

B21K 1/70

of special shape, e.g. self-locking nuts, wing nuts

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of nuts of special shape, e.g. selflocking nuts, wing nuts.

B21K 1/701

{Weld nuts}

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of weld nuts.

Illustrative examples of subject matter classified in this group:

Wing nuts	<u>F16B 37/16</u>

B21K 1/72

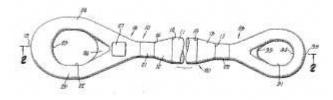

hooks, e.g. crane hooks, railway track spikes (making nails in general **B21G**)

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of hooks, e.g. crane hooks, railway track spikes.

Illustrative examples of subject matter classified in this group:

References

Limiting references

This place does not cover:

Making nails in general	<u>B21G</u>

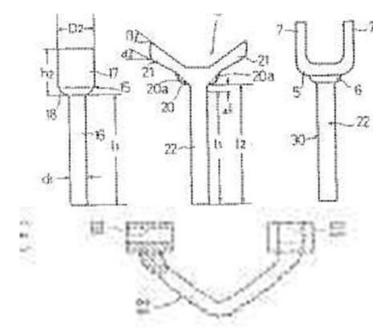

B21K 1/74

forked members or members with two or more limbs, e.g. U-bolts, anchors

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of forked members or members with two or more limbs, e.g. U-bolts, anchors.

B21K 1/76

elements not mentioned in one of the preceding groups

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of machine elements not mentioned in one of the preceding groups.

References

References out of a residual place

Examples of places in relation to which this place is residual:

Making engine or like machine parts	<u>B21K 3/00</u>
Making tools or tool parts	<u>B21K 5/00</u>
Making railway appurtenances; vehicle parts	<u>B21K 7/00</u>
Reconditioning railroad accessories	<u>B21K 9/00</u>
Making cutlery wares; garden tools	<u>B21K 11/00</u>
Making locksmith's goods	<u>B21K 13/00</u>
Making blacksmith's goods	<u>B21K 15/00</u>
Making sport articles	<u>B21K 17/00</u>
Making articles for agricultural machinery	<u>B21K 19/00</u>
Making hollow articles not covered by a single preceding group	<u>B21K 21/00</u>
Making other articles	<u>B21K 23/00</u>
Uniting components to form integral members	<u>B21K 25/00</u>

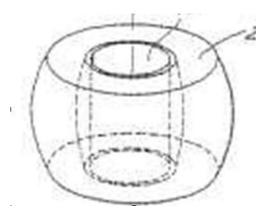

{rings}

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of rings.

Illustrative examples of subject matter classified in this group:

B21K 1/762

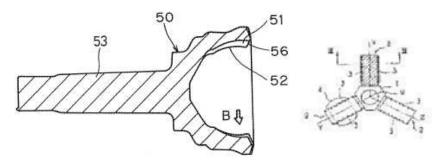

{Coupling members for conveying mechanical motion, e.g. universal joints}

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of coupling members for conveying mechanical motion, e.g. universal joints.

Illustrative examples of subject matter classified in this group:

References

Informative references

Ball joints	F16C 11/06

Making engine or like machine parts not covered by sub-groups of <u>B21K 1/00;</u> Making propellers or the like

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of engine or machine parts, e.g. propellers, magnet wheel disks, scrolls for air conditioners.

Illustrative examples of subject matter classified in this group:

References

Limiting references

This place does not cover:

Making machine elements	<u>B21K 1/00</u>
Making machine elements not specified elsewhere	<u>B21K 1/76</u>

Informative references

Attention is drawn to the following places, which may be of interest for search:

Air conditioning	<u>F24F</u>
Dynamo electric machines	<u>H02K</u>

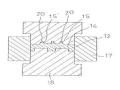

B21K 3/02

cylinder heads

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of cylinder heads.

Informative references

Attention is drawn to the following places, which may be of interest for search:

Cylinder heads	<u>F02F 1/24</u>

B21K 3/04

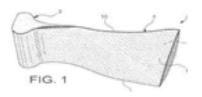

blades, e.g. for turbines; Upsetting of blade roots

Definition statement

This place covers:

Metal forging, pressing or upsetting methods dedicated to the manufacture of blades, e.g. for turbines.

Illustrative examples of subject matter classified in this group:

References

Informative references

Attention is drawn to the following places, which may be of interest for search:

Making turbine or like blades by operations not covered in any other single subclass	<u>B23P 15/02</u>
Blades of non positive displacement machines	F01D 5/12

B21K 5/00

Making tools or tool parts, e.g. pliers

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of tools or tool parts, a non-limiting example being pliers.

B21K 5/02

drilling-tools or other for making or working on holes

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of drilling tools or other for making or working on holes.

Informative references

Attention is drawn to the following places, which may be of interest for search:

B21K 7/02

parts for permanent way (spikes **B21K 1/72**)

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of parts for permanent way.

Limiting references

This place does not cover:

Forging spikes	<u>B21K 1/72</u>

B21K 7/04

switch tongues

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of switch tongues.

B21K 7/06

sleepers

Definition statement

This place covers: Metal forging or pressing methods dedicated to the manufacture of sleepers.

B21K 7/08

base plates for rails, e.g. chairs

Definition statement

This place covers: Metal forging or pressing methods dedicated to the manufacture of base plates for rails, e.g. chairs.

B21K 7/10

rails joints

Definition statement

This place covers: Metal forging or pressing methods dedicated to the manufacture of rails joints.

B21K 7/12

parts for locomotives or vehicles, e.g. frames, underframes

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of parts for locomotives or vehicles, e.g. frames, underframes.

B21K 7/14

brake rigging or brake parts

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of brake rigging or brake parts.

B21K 9/00

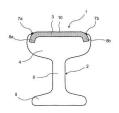

Reconditioning railroad accessories, e.g. rails

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the reconditioning of railroad accessories, e.g. rails.

Illustrative examples of subject matter classified in this group:

B21K 11/00

Making cutlery wares; Making garden tools or the like

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of cutlery wares or garden tools. The expression "or the like" is to be ignored.

B21K 11/02

knives

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of knives.

spoons; table forks

Definition statement

This place covers: Metal forging or pressing methods dedicated to the manufacture of spoons or table forks.

B21K 11/06

scissors

Definition statement

This place covers: Metal forging or pressing methods dedicated to the manufacture of scissors.

B21K 11/08

sickles; scythes

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of sickles or scythes.

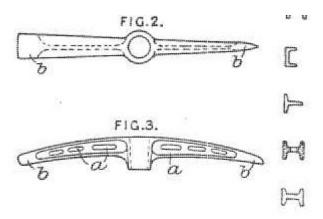

B21K 11/10

axes; picks

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of axes or picks.

spades; shovels

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of spades or shovels.

Illustrative examples of subject matter classified in this group:

FIG. 2

B21K 11/14

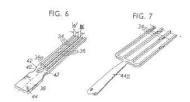

rakes; garden forks

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of rakes or garden forks.

Illustrative examples of subject matter classified in this group:

B21K 13/00

Making locksmiths' goods, e.g. handles for cases

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of locksmiths' goods, e.g. handles for cases.

References

Informative references

Details of locks	E05B 15/00
------------------	------------

B21K 13/02

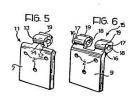

hinges

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of hinges.

Illustrative examples of subject matter classified in this group:

References

Informative references

Attention is drawn to the following places, which may be of interest for search:

Construction of hinges <u>E05D 5/00</u>

B21K 15/00

Making blacksmiths' goods

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of blacksmith's goods.

B21K 15/02

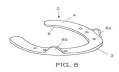

horseshoes; appurtenances therefor

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of horseshoes or appurtenances therefor.

Illustrative examples of subject matter classified in this group:

References

Informative references

Attention is drawn to the following places, which may be of interest for search:

Shoeing of animals	<u>A01L</u>

B21K 15/04

caulks

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of caulks

Illustrative examples of subject matter classified in this group:

B21K 15/06

metal attachments for footwear, e.g. wearresisting plates

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of metal attachments for footwear, e.g. wear-resisting plates.

B21K 17/00

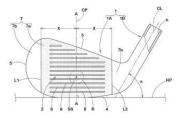

Making sport articles, e.g. skates

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of sports articles, e.g. skates or golf clubs.

Illustrative examples of subject matter classified in this group:

References

Informative references

Attention is drawn to the following places, which may be of interest for search:

Golf clubs	A63B 53/00

B21K 19/00

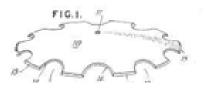

Making articles for agricultural machinery

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of articles for agricultural machinery

Illustrative examples of subject matter classified in this group:

References

Informative references

Attention is drawn to the following places, which may be of interest for search:

Dredging, soil-shifting	<u>E02F</u>

B21K 19/02

plough blades; ploughshares

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of plough blades or ploughshares.

B21K 21/00

Making hollow articles not covered by a single preceding sub-group (essentially from sheet-metal or uniform thin-walled tubes <u>B21D</u>, e.g. <u>B21D 41/00</u>, <u>B21D 51/00</u>)

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of hollow articles.

B21K 21/02

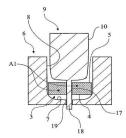

Producing blanks in the shape of discs or cups as semifinished articles for making hollow articles, e.g. to be deep-drawn or extruded

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of discs or cups as semi-finished articles.

Illustrative examples of subject matter classified in this group:

B21K 21/04

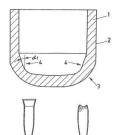

Shaping thin-walled hollow articles, e.g. cartridges

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of cartridges.

Illustrative examples of subject matter classified in this group:

References Informative references

Cartridge ammunition	<u>F42B 5/00</u>

B21K 21/06

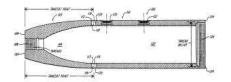

Shaping thick-walled hollow articles, e.g. projectiles

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of thick-walled hollow articles, e.g. projectiles.

Illustrative examples of subject matter classified in this group:

References

Informative references

Attention is drawn to the following places, which may be of interest for search:

Projectiles, missiles	F42B 12/00
-----------------------	------------

B21K 21/08

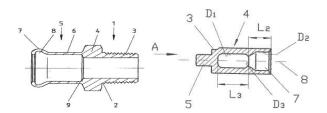

Shaping hollow articles with different cross-section in longitudinal direction, e.g. nozzles, spark-plugs

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of hollow articles with different crosssection, e.g. nozzles, spark-plugs.

Illustrative examples of subject matter classified in this group:

References

Informative references

Spark plugs	H01T 21/02

B21K 21/10

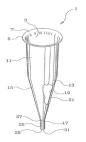

cone-shaped or bell-shaped articles, e.g. insulator caps

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of cone-shaped or bell-shaped articles, e.g. insulator caps.

Illustrative examples of subject matter classified in this group:

References Informative references

Attention is drawn to the following places, which may be of interest for search:

Electric terminals H01M 50/543	l Electric terminals	H01M 50/543
--------------------------------	----------------------	-------------

B21K 21/12

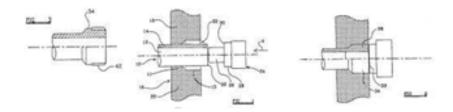

Shaping end portions of hollow articles

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the shaping of end-portions of hollow articles.

Illustrative examples of subject matter classified in this group:

References

Limiting references

Making flanged articles	<u>B21K 23/04</u>
-------------------------	-------------------

Informative references

Attention is drawn to the following places, which may be of interest for search:

Shaping end portions of hollow articles without substantially modifying the	B21D 41/04
workpiece thickness	

B21K 21/14

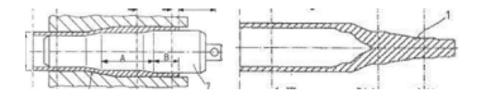

closed or substantially-closed ends, e.g. cartridge bottoms

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the shaping of closed or substantially closed endportions of hollow articles, e.g. cartridge bottoms.

Illustrative examples of subject matter classified in this group:

References

Informative references

Attention is drawn to the following places, which may be of interest for search:

Closing end portions of hollow articles without substantially modifying the	<u>B21D 41/045</u>
workpiece thickness	

B21K 21/16

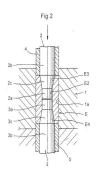

Remodelling hollow bodies with respect to the shape of the cross-section (remodelling end portions only <u>B21K 21/12</u>)

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the remodelling of hollow bodies with respect to the shape of their cross-section.

Illustrative examples of subject matter classified in this group:

References

Limiting references

This place does not cover:

Remodelling end-portions only	<u>B21K 21/12</u>

B21K 23/00

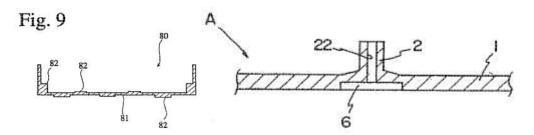

Making other articles

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of articles not provided for in the groups $\underline{B21K 1/00}$ - $\underline{B21K 21/00}$, especially thin articles worked in their thickness.

Illustrative examples of subject matter classified in this group:

Source: EP0945199, WO2006008861.

Making other machine elements	<u>B21K 1/76</u>
Making other engine or machine parts	<u>B21K 3/00</u>

B21K 23/02

members of endless tracks, e.g. track guides, shoes (making from sheet-metal <u>B21D</u>)

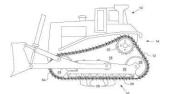

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of members

of endless tracks, e.g. track guides, shoes.

Illustrative examples of subject matter classified in this group:

References

Informative references

Attention is drawn to the following places, which may be of interest for search:

Making roller chains	<u>B21L 9/02</u>
Endless track vehicles	<u>B62D 55/00</u>

B21K 23/04

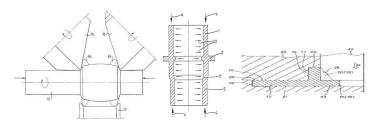

flanged articles (B21K 1/28 takes precedence; flanging tubes B21D)

Definition statement

This place covers:

Metal forging or pressing methods dedicated to the manufacture of flanged articles.

Illustrative examples of subject matter classified in this group:

Relationships with other classification places

Flanging tubes without substantially modifying the tube thickness B21D

References

Limiting references

This place does not cover:

Making wheel, disks	<u>B21K 1/28</u>
Shaping end-portions of hollow articles	<u>B21K 21/12</u>

B21K 25/00

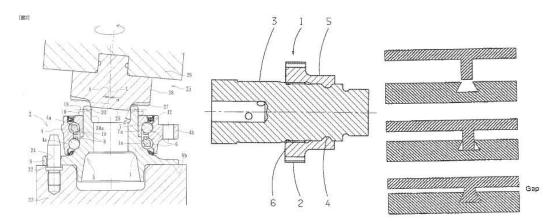

Uniting components to form integral members, e.g. turbine wheels and shafts, caulks with inserts, with or without shaping of the components (uniting by interference- or press-fitting <u>B23P 11/02</u>, <u>B21K 19/02</u>)

Definition statement

This place covers:

Metal forging or pressing methods for uniting components in order to form integral members, with or without shaping the components.

Illustrative examples of subject matter classified in this group:

Relationships with other classification places

Interference or press-fitting	B23P 11/02
Uniting metal sheets by deformation	<u>B21D 39/03</u>
Press-welding by means or rolling mills	<u>B23K 20/04</u>

B21K 27/00

Handling devices, e.g. for feeding, aligning, discharging, Cutting-off means; Arrangement thereof

Definition statement

This place covers:

Handling devices in relation to metal forging or pressing, for e.g. feeding, aligning, discharging, cutting off.

References

Limiting references

Accessories for handling forging work	<u>B21J 13/08</u>
---------------------------------------	-------------------

B21K 27/02

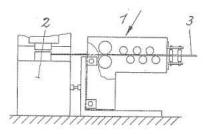

Feeding devices for rods, wire, or strips

Definition statement

This place covers:

Devices for feeding rods, wires or strips into a forging machine.

Illustrative examples of subject matter classified in this group:

B21K 27/04

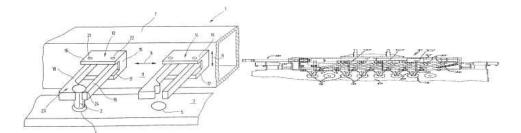

allowing successive working steps

Definition statement

This place covers:

Devices for feeding and allowing successive working steps.

Illustrative examples of subject matter classified in this group:

References
