

G06M

COUNTING MECHANISMS; COUNTING OF OBJECTS NOT OTHERWISE PROVIDED FOR (counting by measuring volume or weight of articles to be counted [G01F](#), [G01G](#); computers [G06C](#) - [G06J](#); counting electric pulses [H03K](#); counting characters, words or messages in switching networks for transmission of digital information [H04L 12/08](#))

Definition statement

This place covers:

Stepping or continuously-moving mechanical counters operated through one or more inputs applied to the lowest order mechanically or electrically.

Counting systems involving applications of either mechanical, electrical, or electronic counters.

Special rules of classification

Subject-matter classified in [G06M 7/00](#), [G06M 9/00](#), and [G06M 11/00](#) should also be classified in the relevant sub-group of [G06M 1/08](#) if the means detecting the objects counted are of particular relevance.

G06M 7/00

Counting of objects carried by a conveyor

Definition statement

This place covers:

Counting of randomly distributed loose objects moving past a counting station, like in chute conveyors.

G06M 11/00

Counting of objects distributed at random, e.g. on a surface

Definition statement

This place covers:

Counting of objects in a static distribution.
