INSTRUMENTS

G08 SIGNALLING

G08B SIGNALLING OR CALLING SYSTEMS; ORDER TELEGRAPHS; ALARM SYSTEMS

NOTES

- 1. This subclass <u>covers</u> also means for identifying or incapacitating burglars or the like.
- 2. This subclass does not cover:
 - the mere provision of an audible or visible signalling device on measuring or switching apparatus;
 - alarm systems for indicating that a specific variable has exceeded, or fallen below, a predetermined value, which are covered by the relevant subclasses of class <u>G01</u> for the measurement of that variable.
 - alarms for specific processes or types of machines or apparatus, which are covered by the relevant subclasses for the processes, machines, or apparatus.
- 3. In this subclass, the following term is used with the meaning indicated:
 - "systems" may cover also devices peculiar thereto.

provided for, e.g. turn-off protection}

WARNING

In this subclass non-limiting references (in the sense of paragraph 39 of the Guide to the IPC) may still be displayed in the scheme.

1/00	Systems for signalling characterised solely by the form of transmission of the signal	3/1075 3/1083	 {Paging racks} {Pager locating systems}
1/02	 using only mechanical transmission 	3/1091	{Group calling}
1/04	using hydraulic transmission; using pneumatic transmission	3/14	• using explosives
1/06	hydraulic only	5/00	Visible signalling systems, e.g. personal calling systems, remote indication of seats occupied
1/08	 using electric transmission {; transformation of alarm signals to electrical signals from a different medium, e.g. transmission of an electric alarm signal upon detection of an audible alarm signal} 	5/002	{Distress signalling devices, e.g. rescue balloons (vehicle optical signalling for indicating emergencies B60Q 1/52)}
2001/085	• • {Partner search devices}	5/004	 {Reflective safety signalling devices attached on persons}
3/00 3/02	Audible signalling systems; Audible personal calling systems using only mechanical transmission	5/006	• {Portable traffic signalling devices (<u>G08B 5/004</u> takes precedence; emergency signalling devices to be placed on roads or vehicles <u>B60Q 7/00</u>)}
3/06	 using only incertained dualishins for using hydraulic transmission; using pneumatic 	5/008	• {Traffic signalling mirrors}
2,00	transmission	5/02	 using only mechanical transmission
3/10	 using electric transmission; using electromagnetic transmission 	5/06	using hydraulic transmission; using pneumatic transmission
3/1008	• • {Personal calling arrangements or devices, i.e. paging systems (selective calling systems and call	5/14	• • with indicator element moving about a pivot, e.g. hinged flap or rotating vane
3/1016	receivers <u>H04W 84/00</u> , <u>H04W 68/00</u>)} {using wireless transmission (calling	5/16	• • • with reset means necessitating a separate operation to return the indicator element
	systems using transmission by inductive loop	5/18	with indicator element moving rectilinearly
3/1025	H04B 5/00)}Paging receivers with audible signalling	5/20	• • • with reset means necessitating a separate operation to return the indicator element
3/1033	details} {with voice message alert}	5/22	• using electric transmission; using electromagnetic transmission
3/1041	• • • • { with alternative alert, e.g. remote or silent alert }	5/221	• • {Local indication of seats occupied in a facility, e.g. in a theatre}
3/105	• • • • {with call or message storage means}	5/222	• • {Personal calling arrangements or devices, i.e.
3/1058	• • • • {Pager holders or housings (casings for electric apparatus <u>H05K 5/00</u>)}		paging systems (selective calling systems and call receivers <u>H04W 84/00</u> , <u>H04W 68/00</u>)}
3/1066	• • • • { with other provisions not elsewhere	5/223	• • { using wireless transmission}
