CPC COOPERATIVE PATENT CLASSIFICATION

GENERAL TAGGING OF NEW TECHNOLOGICAL DEVELOPMENTS; GENERAL \mathbf{Y} TAGGING OF CROSS-SECTIONAL TECHNOLOGIES SPANNING OVER SEVERAL SECTIONS OF THE IPC; TECHNICAL SUBJECTS COVERED BY FORMER USPC CROSS-REFERENCE ART COLLECTIONS [XRACs] AND DIGESTS (NOTES omitted)

Y04 INFORMATION OR COMMUNICATION TECHNOLOGIES HAVING AN IMPACT ON OTHER TECHNOLOGY AREAS

Y04S SYSTEMS INTEGRATING TECHNOLOGIES RELATED TO POWER NETWORK OPERATION, COMMUNICATION OR INFORMATION TECHNOLOGIES FOR IMPROVING THE ELECTRICAL POWER GENERATION, TRANSMISSION, DISTRIBUTION, MANAGEMENT OR USAGE, i.e. SMART GRIDS

Systems supp distribution	oorting electrical power generation, transmission or	20/14	• Protecting elements, switches, relays or circuit breakers
10/00	Systems supporting electrical power generation, transmission or distribution	20/20 20/221	 End-user application control systems General power management systems
10/12	 Monitoring or controlling equipment for energy generation units, e.g. distributed energy generation [DER] or load-side generation 	20/222	 Demand response systems, e.g. load shedding, peak shaving Home appliances
10/123	the energy generation units being or involving renewable energy sources	20/244	• • • the home appliances being or involving heating ventilating and air conditioning [HVAC] units
10/126	• the energy generation units being or involving electric vehicles [EV] or hybrid vehicles [HEV],	20/246	• • • the system involving the remote operation of lamps or lighting equipment
	i.e. power aggregation of EV or HEV, vehicle to grid arrangements [V2G]	20/248 20/30	 UPS systems or standby or emergency generators Smart metering, e.g. specially adapted for remote
10/14	Energy storage units		reading
10/16 10/18	 Electric power substations using switches, relays or circuit breakers, e.g. intelligent electronic devices [IED] 	Systems sup transportati	porting specific end-user applications in the sector of on
10/20	 using protection elements, arrangements or systems 	30/00	Systems supporting specific end-user applications
10/22	• Flexible AC transmission systems [FACTS] or		in the sector of transportation
	power factor or reactive power compensating or correcting units	30/10	• Systems supporting the interoperability of electric or hybrid vehicles
10/30	• State monitoring, e.g. fault, temperature monitoring,	30/12	Remote or cooperative charging
10/40	insulator monitoring, corona dischargeDisplay of information, e.g. of data or controls	30/14	• Details associated with the interoperability, e.g. vehicle recognition, authentication, identification
10/50	Systems or methods supporting the power network operation or management, involving a certain	or billing	or billing

Systems supporting the management or operation of enduser stationary applications, including also the last stages of powe mana

e.g. in the last power distribution stages

applications

or location

10/52

degree of interaction with the load-side end user

. . Outage or fault management, e.g. fault detection

ower distribution and the control, monitoring or operating lanagement systems at local level			communication or information technologies, or communication or information technology specific aspects supporting them
20/00	Management or operation of end-user stationary applications or the last stages of power distribution; Controlling, monitoring or operating thereof	40/12	 characterised by data transport means between the monitoring, controlling or managing units and monitored, controlled or operated electrical equipment
20/12	• Energy storage units, uninterruptible power supply [UPS] systems or standby or emergency generators,	40/121	• using the power network as support for the transmission

40/00

Communication or information technology specific aspects

or end-user application management

supporting electrical power generation, transmission, distribution

Systems for electrical power generation,

management characterised by the use of

transmission, distribution or end-user application

CPC - 2024.05 1 Communication or information technology specific aspects supporting electrical power generation, transmission,...

40/124 . using wired telecommunication networks or data transmission busses
 40/126 . using wireless data transmission
 40/128 . involving the use of Internet protocol
 40/18 . Network protocols supporting networked applications, e.g. including control of end-device applications over a network
 40/20 . Information technology specific aspects, e.g. CAD, simulation, modelling, system security

Market activities related to the operation of systems integrating technologies related to power network operation and communication or information technologies

50/00	Market activities related to the operation of systems integrating technologies related to po- network operation or related to communication	
	information technologies	
50/10	 Energy trading, including energy flowing from end- user application to grid 	
50/12	 Billing, invoicing, buying or selling transactions or other related activities, e.g. cost or usage evaluation 	
50/14	 Marketing, i.e. market research and analysis, surveying, promotions, advertising, buyer profiling, 	
50/16	customer management or rewards	
50/16	 Energy services, e.g. dispersed generation or demand or load or energy savings aggregation
